

## DCC WATERBEDS FILL REQUIREMENTS

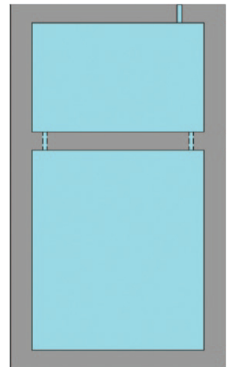

Follow the fill requirements for each size exactly DO NOT OVER OR UNDER FILL THE BEDS. Under filling the beds will not adequately support and float the cow, and overfilling the beds will create a surface that will effect the performance of the bed.

### FOLLOW THE FILL REQUIREMENTS EXACTLY

*The fill requirements have been determined after 15 years of testing, evaluation and performance. Follow them exactly. Note that fill amounts change based on the number of stainless steel strips directly attached to each bed.*

## DCC WATERBEDS *junior* & ORIGINAL

Bed width (inches)	Bed width (cm)	0 strips	1 strip	2 strips
		<i>Amount in US Gallons</i>	<i>Amount in US Gallons</i>	<i>Amount in US Gallons</i>
34"	86cm	7	6	5
36"	91.5cm	7	6	5
